

COMPOSTABILITY

The compostability of the product ensure its disintegration in less than three months!

MOCA CERTIFICATION

The declaration of conformity for Mocas (Materials and Objects in Contact with Food) is a necessary certification that ensure respect of certain mandatory food-hygiene requirements.

The aim of the certification is to protect consumer's health, by guaranteeing the quality of product during all the stages of the production process.

BIO-STIRRER for coffee/ cappuccino

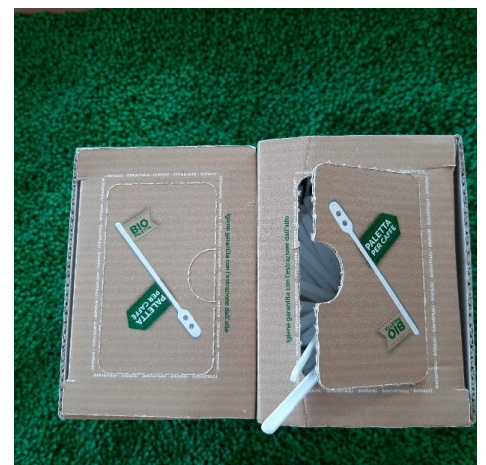

Our BIO-coffee stirrer, in addition to having an elegant shape that has been specially designed to lighten the article and therefore contain the waste of raw material, is one of a kind, due to the cardboard packaging that ensures hygiene, thanks to the extraction from above.

This specific packaging is an additional form of respect for the environment, because the industrial process of the single pallet paddle is completely eliminated.

It is an Italian CE marked product, certified for MOCA, realized handling compostable raw materials according to UNI EN 13432: 2002 with a certified carton box, containing the indications for separate collection.

- **COMPOSTABLE STIRRER**
- Length 11 cm (usable for coffee/cappuccino)
- **HYGIENIC CARDBOARD BOX**
- Italian CE marked product, certified for MOCA, realized handling compostable raw materials according to UNI EN 13432: 2002
- Deadline **2 years** from production, if correctly stored in a thermally suitable environment and without sunlight.
